15. Termination for Cause

Either party may terminate this Agreement for cause in the event of a material breach of this Agreement, provided that the non-breaching party provides written notice of the material breach. If the breach is not cured to the satisfaction of the non-breaching party, this Agreement shall automatically terminate and the CDFA shall reimburse the Recipient for all documented costs incurred up to the date of the notice of termination, including all non-cancellable obligations. Timelines associated with notice and curing of material breaches shall be consistent with the timelines outlined in paragraph 17.

County of Tehama Animal Services Department

\$50,000

Project Title

Spay/Neuter Assistance for Cats and Dogs in Rural Communities

Project Duration

Start Date: June 1, 2026

End Date: May 31, 2027

Project Description

The program addresses the need for expanded access to veterinary care and spay and neuter services in rural communities within Tehama and Glenn counties. With more than 20 percent of residents living below the poverty line, extended travel distances and high surgical costs limit access to sterilization services. Using a mobile spay and neuter van, services will be delivered to rural communities throughout both counties. Free spay and neuter procedures for dogs and cats will be available to underserved residents located more than 25 miles from a veterinary clinic. The program will increase surgical capacity by 825 procedures, with a goal of altering 575 cats and 250 dogs.

Project Purpose

Residents of Tehama and Glenn Counties have limited access to affordable spay/neuter services, and many live in communities without local veterinary clinics. Stray animal intake per capita is significantly higher in these rural areas compared to urban communities with greater access to veterinary care, often due to unintended litters. In the past year, approximately 30 percent of stray intakes were animals under five months of age.

Despite serving two counties and five incorporated cities, no low-cost spay/neuter clinics operate within the service area. Residents are frequently referred to neighboring counties, where wait times for services range from 12 to 18 months. Private veterinary clinics also face extended scheduling delays, often booking appointments six months in advance, with costs that are prohibitive for communities in which more than 20 percent of residents live below the poverty line. This project will expand access to spay/neuter services by deploying a mobile veterinary unit to the most rural communities. Grant funding will support an additional 825 spay/neuter surgeries.

Current mobile veterinary services primarily support shelter animals, with approximately 50 free spay/neuter surgeries provided annually for publicly owned animals. If funded, the project will expand these services to provide free spay/neuter procedures for an additional 825 animals.

Prior Year Pet Lover's License Plate Program Project

This project does not build upon a previously funded Pet Lover's License Plate Program project.

Support from Other Federal or State Grant Programs

This project has not been submitted to or funded by another Federal or State grant program.

Project Awareness

This project will focus on rural communities without convenient access to veterinary care. Outreach will begin in central community locations, such as post offices and general stores. Waiting lists and surveys will be used to assess community interest and determine service demand.

Flyers will provide information about upcoming spay/neuter services and include details regarding the specialized license plate program. Grant progress will also be shared on the County website, including interest forms for rural communities seeking future services, program outcomes, and planned spay/neuter events. All communications will include acknowledgment of the grant program and links to information about the specialized license plate program.

Quarterly social media posts will highlight program success and include references to both the grant program and the specialized license plate program.

Project Work Plan

Project Activity	Performed By	Timeline
Initial community assessments and waitlist set up	Shawnee Winterson & Christine McClintock	Jun 2026
Mobile spay/neuter clinics 3-4 days per month	Dr. Fox, Dr. Hill, shelter employed RVTs and veterinary assistants	Jun 2026 - May 2027
Quarterly progress assessments	Shawnee Winterson & Christine McClintock	Sep 2026, Dec 2026, Mar 2026
Final grant assessment and reporting	Shawnee Winterson & Christine McClintock	May 2027

Evaluation and Performance Monitoring Plan

Initial surveys and waitlist sign-ups will be used to determine the level of need and the number of surgery days required in each rural community. Post-surgery data will be compiled for each community following completion of clinic days. Waitlists and post-event surveys will provide additional information regarding ongoing needs and community impact.

Data collection and analysis will be conducted by Shawnee Winterson and Christine McClintock.

Evaluation will occur on an ongoing basis, with monthly assessments of waitlists to determine upcoming service needs. A final program evaluation will be completed in May

Data will be used to identify deficiencies and improve program performance. Following service delivery, annual intake statistics for each community will be compared to prior-year data to assess impact.
