The County reserves the right to require rating verification. Contractor shall ensure that the insurance carrier shall be authorized to transact business in the State of California.

Subcontractors

Contractor shall require and verify that all subcontractors maintain insurance that meets all the requirements stated herein.

Material Breach

If for any reason, Contractor fails to maintain insurance coverage or to provide evidence of renewal, the same shall be deemed a material breach of contract. County, in its sole option, may terminate the contract and obtain damages from Contractor resulting from breach. Alternatively, County may purchase such required insurance coverage, and without further notice to Contractor, County may deduct from sums due to Contractor any premium costs advanced by County for such insurance.

Policy Obligations

Contractor's indemnity and other obligations shall not be limited by the foregoing insurance requirements.

Verification of Coverage

Contractor shall furnish County with original certificates and endorsements effecting coverage required herein. All certificates and endorsements shall be received and approved by the County prior to County signing the agreement and before work commences. However, failure to do so shall not operate as a waiver of these insurance requirements.

The County reserves the right to require complete, certified copies of all required insurance policies, including endorsements affecting the coverage required by these specifications at any time.

PROGRAM INTENT AND GOALS AND DESCRIPTION OF SERVICES AND TREATMENT METHODS:

A. Program Intent and Goals:

The CONTRACTOR will provide services to individuals diagnosed with Serious Mental Illness (SMI) and Serious Persistent Mental Illness (SPMI) whose level of functioning, symptoms, and psychiatric history necessitate service intervention to maintain the individual in community settings. The goal is to assist individuals in Institution for Mental Disease (IMD) levels of care to step-down and transition back into the community with the support that has been demonstrated to be the most effective, using the Modified Therapeutic Community and Wellness and Recovery models.

General Program Description:

Overview:

The need to provide stable housing and effective clinical services for adults with severe mental illness remains a challenge for many COUNTY agencies. Psynergy Programs offers Adult Residential Facilities (ARF), Residential Care Facilities for the Elderly (RCFE) and outpatient mental health clinics in close proximity. CONTRACTOR has demonstrated that providing reliable adult residential home care in combination with intensive outpatient mental health services can help individuals with mental illness avoid the unnecessary expense and emotional trauma often associated with incarceration and hospitalization. CONTRACTOR provides both residential services and mental health services to people with serious mental illnesses ages 18 and above. The program utilizes tenets of the Wellness and Recovery, Integrated Dual Diagnosis Treatment and Modified Therapeutic Community (MTC) treatment models, (Phase One, Two and Four). CONTRACTOR'S programs are an alternative to locked settings such as a State Hospital, Psychiatric Hospital, an IMD, a Psychiatric Health Facility (PHF) and Jail. The intent and goal of CONTRACTOR'S services is to improve everyone's quality of life, to help individuals gain the skills and ability necessary to stay out of locked hospital settings and to move into a less restrictive living arrangement in the community.

A.1

RESIDENTIAL SERVICES TO BE PROVIDED BY CONTRACTOR

CONTRACTOR provides Client Development Services to clientele residing in locked hospital settings. Prior to enrollment in Psynergy Programs, our Client Development Specialists work in partnership with clients, counties, hospitals and IMDs to help individuals become motivated and prepared to move into our programs. Motivational interviewing techniques are utilized to engage clients and to foster a treatment alliance that can be further developed in the therapeutic community. This multifaceted process facilitates community re-integration.

Residential Services – Upon Admission

CONTRACTOR provides Residential Services currently at six (6) sites, which are used in a step-down manner from locked settings, with a high level of support and services offered at all sites, Nueva Vista Morgan Hill, Nueva Vista Sacramento, Vista de Robles, Vista Esperanza, and Cielo Vista Greenfield. Counties initiate referrals to CONTRACTOR for clientele residing in state hospitals (Napa & Metro), Institutes for Mental Disease (IMD), Psychiatric Health Facilities (PHF), County Jails, or sub-acute crisis programs. CONTRACTOR also receives referrals from local community psychiatric hospitals, board and care homes or private parties in the community with the aim of providing stabilization from acute episodes of mental illness and helping individuals reintegrate into the community. CONTRACTOR provides an array of services that ensure client safety and that help individuals meet their basic needs in the least restrictive home-like setting possible. We foster community reintegration for many individuals that have previously resided in locked mental health facilities for extended periods of time.

Room and Board: Clients are provided with clean, comfortable, functional, and non-institutional living quarters, as well as attractive living areas, which contribute to the improvement of their mental and physical health and functioning.

Basic Services: The facility's Administrators and staff are actively involved in developing opportunities for residents to learn and practice independent living skills and responsibilities. This includes group activities and classes, "Leisure" and "Recreational", as well as opportunities to learn vocational skills. The primary goal is to assist residents to obtain skills needed to move to a less restrictive, more independent setting.

Specifically, our residential programs include the following:

- Orientation by staff and/or peers will be provided to each resident within three days of arrival.
- Attractive, clean and comfortable lodging.
- Three (3) nutritious and well-balanced meals and three (3) snacks daily.
- Weekly, and as needed, cleaning of the resident's room and bathroom by onsite housekeeping staff. Daily cleaning is provided for all incontinent individuals.
- Recreational, leisure and social activities.
- Bed linens and towels.
- A conveniently located phone available for resident's incoming personal and outgoing local personal calls.
- Limited individual storage space consisting of a closet and small dresser in resident's room for resident's own private use.
- Help with planning and arranging for transportation to local functions, churches and educational classes within a nearby radius.

- Consultation as needed with the resident's doctors about resident's general mental and physical health.
- Assistance as needed with obtaining linkage to medical care.
- Assistance as needed with taking prescribed medications in accordance with doctor's instructions unless prohibited by law or regulation.
- At the request of a majority of residents, assistance to residents in establishing and maintaining a resident-oriented facility council.

- CONTRACTOR provides all personal hygiene needs from dental floss to shampoo.
 When recommended by our Dental Hygienist electric toothbrushes are provided at no cost.
- CONTRACTOR provides Over the Counter (OTC) to all residents, at no cost to the individual or COUNTY. The following are provided by Psynergy: Headache acetaminophen, aspirin, Motrin. Constipation - acetaminophen, ibuprofen, ASA. Diarrhea - Pepto Bismol, Imodium. Nausea and Upset Stomach - Tums, Maalox, Pepto Bismol

Care and Supervision: Adequate and highly competent, caring, and compassionate staffing will be provided 24/7 in order to help prevent crisis situations or other disruptions in client's lives that could lead to acute hospitalization or loss of housing. Our goal is to keep clients on track toward mental and physical health improvement. Night supervisory staff shall be awake in compliance to Regulation 85065.6(d).

Daily Activities Program: Our Daily Activities Program is designed to help clients improve their well-being and functioning. Program activities occur seven (7) days a week, featuring recreational and leisure activities. Program activities promote the development of personal interests and help residents to practice healthy lifestyles, social skills, positive coping strategies, accessing community resources and money management. The daily schedule of activities is developed and implemented by the facility's Program Manager. The facility Administrator, residential counselors, and clients will assist with some of the planned activities at times for all-facility engagement.

Recreational and Leisure Activities: Recreation is a vital aspect of maintaining a stable and healthy lifestyle. Families are invited and encouraged to join the residence at holiday events and residential celebrations. Recreational opportunities are offered on a daily basis. As our clients recover and benefit from our programs, we encourage them to access some of the community resources available to them in Morgan Hill, Greenfield and Sacramento. We promote participation in daily outings in the community, including walks in the surrounding neighborhoods, bike rides, visits to local festivals, visits to the library and outings to local restaurants with the aim of enhancing self-esteem, building social skills and instilling optimism about the future.

Holistic Health: The philosophy of our program is that sound nutrition and other measures to achieve good overall health help to facilitate recovery and stability. This program element provides weekly activities led by Psynergy staff members and topic experts, including:

- Nutrition how to plan, procure and prepare nutritious meals that contribute to overall health
- Smoking Cessation
- Medication education
- Safe Sex and prevention of sexually transmitted diseases (STD's), including decision making and negotiating to achieve protected sex.
- Diabetes Awareness and management skills
- Healthy Habits, such as personal hygiene, use of sunscreen, good eating habits, weatherappropriate dressing

For diabetic clients and other clients whose health can be enhanced by following special diets, they will be assisted in special meal procurement and preparation. In addition, snacks will be available to meet their dietary needs. The facility is prepared and capable of offering vegetarian and allergy sensitive options.

Physical Fitness Program: Exercise contributes to the alleviation of stress, anxiety and depression, reduces the risks associated with cardiovascular disease and metabolic abnormalities, creates weight loss and promotes a healthy lifestyle. Psynergy staff members and residents provide daily exercise groups. Psynergy Adult Residential facilities provide residents with a local gym membership. Counselors help residents gain access to the gym and provide supervision and training to promote physical fitness.

Vocational Readiness: A sense of purpose can contribute to stabilization and recovery. This program allows clients to attain paid employment or meaningful volunteer work. A variety of vocational opportunities are provided to clients as part of the Daily Activities Program. The types of job opportunities offered include administrative work (i.e., constructing and making copies of fliers and distributing them), janitorial work, assisting in landscape maintenance and meal service. Residents are given a detailed description of the job and the skills it requires they apply and go through an interview to be awarded the job. They are given a stipend once they complete the job (in the form of gift cards so benefits are not jeopardized.) They are then shown the correlation between the task they performed and jobs in the real world. This helps them develop skills in an informal way and helps them develop a resume of marketable skills.

Peer and Family Support: Peer counseling and Leadership allows individuals to take a proactive role within the facility as well as in the lives of each other. This aspect of the program develops a sense of empowerment and leadership skills within the individual. A resident council is established to allow the residents as a whole to give voice to their opinions and ideas of the program and their needs. A volunteer sign up is established for those willing to provide assistance with leading groups, assist individuals to access community resources or to provide assistance to those clients with a lower functioning capability.

Psynergy recognizes the importance of supportive family connections to our client's recovery. Our programs provide family support and education to help family members develop their own coping and communication skills in order for them to better support their client/family member. Education and support are provided through recreational activities, family support groups, and facilitating linkages with NAMI. Visiting hours for friends and family are seven (7) days a week.

Linkage to Community Resources: Linkage to community resources is provided to help individuals who have just been discharged from locked settings integrate into the community. Linkage is also provided to those individuals that have progressed further in the recovery process and that are working toward more independence. Because the ultimate goal for each individual is to move into least restrictive living situation, it is important that the individual learn to access and utilize non-mental health services within the community. Referrals include schools, colleges, and other institutions for education; vocational programs, public transit, medical and dental services; cultural organizations, churches and places of worship; financial institutions, and government agencies.

LEVELS OF TREATMENT COMPLEXITY

A supplemental services patch rate will be determined and based on an individual's level of treatment complexity. Rates will be compatible with these terms reflected in Exhibit B & C.

CONTRACTOR will work in collaboration with the COUNTY case manager to determine Level I or Level II rate for each referred client. CONTRACTOR will utilize our Psynergy Programs Complex Care Level of Service Evaluation as an assessment tool prior to admission. COUNTY staff and Psynergy staff both will provide input to determine the client's complexity level prior to admission to Psynergy Programs.

The client's complexity level will be reassessed every six months after admission using the Psynergy Programs Complex Care Level of Service Evaluation as an assessment tool. If there is a significant change in the level of functioning before the six-month period is over, CONTRACTOR and COUNTY case manager will establish a new benchmark assessment, using the Psynergy Programs Complex Care Level of Service Evaluation as an assessment tool and adjust the daily patch rate accordingly.

Examples of some Level I and Level II complex care coincide with the specialized needs, reporting, and treatment requirements of the following client populations:

- 1) Individuals who have severe psychiatric conditions that require additional temporary assistance in monitoring medical issues or that need continued support and education to manage chronic medical conditions such as diabetes and chronic obstructive pulmonary disease (COPD).
- 2) Individuals with co-occurring disorders such as substance abuse, developmental delays or physical impairments that require linkage to specialized community resources or that may need various behavioral supports, including specialized health care, frequent one-to-one supervision and prompting to maintain a community placement.
- 3) Individuals requiring Restricted Health Care Plans, incontinent care (urinary and fecal), Diabetes and Insulin management, Colostomy care, Vitals, Oncology treatment and support, etc. significant medication management, crushed medication orders, medication adherence precautions, treatment supports, multiple medications, and supporting refusals with medication room staff interventions.
- 4) Individuals released from jail requiring additional support and reporting. Mental Health Diversion, PC1001.36, Registered Sex Offenders, Court Ordered Treatment (Assisted Outpatient Treatment (AOT), Laura's Law), CARE Act, Arsonists, Electronic monitoring devices, and Probation.

Intensive Support Services (ISS) Program.

5) ISS provides a higher level of care to transitional clients, including but not limited to, higher levels of supervision, separate smaller residential wing, more intensive clinical and medication management leading to symptom stabilization, and supervised integration with other facility residents.

Program intended for COUNTY clients who are discharged to CONTRACTOR from Psychiatric Health Facilities, Psychiatric Hospitals, State Hospitals, Crisis Stabilization Units, and Behavioral Health Units. Program may also be beneficial to COUNTY clients

who are not thriving, relapsing or decompensating while admitted to CONTRACTOR residential programs.

Tres Vista Apartments Assertive Community Treatment & Supported Accommodations

Our Assertive Community Treatment (ACT)/Supported Accommodation Program (SAP): Tres Vista Apartments provides the right combination of Services and Supports. We incorporate evidence-based practices as well as draw from therapeutic community and psychosocial rehabilitation models.

Psynergy adopted the Modified Therapeutic Community (MTC) model to specifically address acute psychiatric symptoms, cognitive impairments, and reduced level of functioning of individuals struggling with the debilitating effects of mental illness, dual substance use disorders and co-morbid health conditions. In partnership with the MTC model, Psynergy has adapted an ACT model that reflects individuals being supported in the community, and also by creating community.

Working in partnership with clients, our three program phases help individuals move into community settings and culminate with a "Live Out" re-entry program called Tres Vista Apartments.
