2. Cumulative Discount(s)

Contractor provides a cumulative volume discount as follows based on dollars resulting from the cumulative purchases by all purchases made by Purchasing Entities for the duration of the Master Agreement.

After review and analysis of the cumulative purchases at the end of each year of the Master Agreement, if HP and NASPO determine that the volumes are reached, these discounts will be passed directly to the Master Agreement based on the Lead State approval for participants and procuring entities to utilize as additional cost savings on HP products. These cumulative discounts are only potential for future potential minimum band discount or potential product services, as determined by HP.

Lease Rates

Optional: Lease Rates

Hewlett-Packard Financial Services Company offers the following lease options: (1) Fair Market Value/True Lease; (2) Tax Exempt Tech Refresh; and (3) Tax Exempt Installment Sale (Lease Purchase).

Lease are provided on the PSS. Rates may be subject to change quarterly.

Fair Market Value/True Lease:

For customers that want to lower their cost of using the equipment and retain maximum flexibility at the end of the lease, Hewlett-Packard Financial Services Company offers a fair market value lease (also known as a true lease). This "pay-as-you-go" structure helps you stretch your budget dollars to get the technology you need today. At the end of the lease term, you have several options: 1) return the equipment without penalty; 2) renew the lease for a specified renewal term at a negotiated lease payment amount; 3) purchase the equipment at its then fair market value; or 4) extend the original term and continue to make the same periodic lease payments until you are ready to exercise one of the three previously listed options. This plan may help customers avoid technology obsolescence and asset disposition costs.

Hewlett-Packard Financial Services Company does allow customers to enter into a month-to-month extension at the end of each lease agreement if they find it necessary to maintain their existing leased equipment for longer than the original lease timeframe. Hewlett-Packard Financial Services Company also has a package and shipping service that can be incorporated into the lease contract upfront for returns of equipment at lease end. This service can be very valuable when budgeting for your technology costs.

Tax Exempt Tech Refresh:

Tech Refresh is structured as a Tax-Exempt Installment Sale with an option on the last payment to return the equipment (and acquire new) or make the payment and own the equipment outright. The standard offer calls for payments to be made annually in advance, though additional structures may be tailored to accommodate budget restrictions. The final (or option) payment is a set amount of the original purchase price of the equipment and is an estimate of the wholesale value of the equipment at the time of the option. The balance of the cost is amortized over the term. The benefit is that an entity is not locked into any one particular deal; it can purchase the equipment or return it and get new technology. Other important elements of the Tech Refresh structure are listed below.

- There is only one refresh opportunity during the lease
- Lessee must be committed to acquire and lease similar equipment prior to exercising the option
- Tech Refresh is offered only as a Tax-Exempt Installment Sale structure
- The option cannot be exercised if an event of default has occurred and is continuing
- Lessee must provide an irrevocable written election of notice of its intent to refresh or purchase 3 months prior to the refresh period. On the 48-month term the refresh point is month 36 which requires notification at month 33. On the 60-month term the refresh point is month 48 which requires notification at month 45. Sample buyout goes into effect if refresh option is not exercised.

Lease Rates

Tax Exempt Installment Sale (Lease Purchase):

In a Tax-exempt Installment Sale structure, payments consist of both principal and interest, with the interest being excludable from the Lessor's gross income for Federal income tax purposes. During the term of the Lease the Concluding Payment – primarily consisting of unpaid principal – declines as each Lease Payment is made and applied. Under this structure Title typically passes to the Lessee at the Lease Acceptance and the Lessor files a security interest in the equipment. Once the original base Lease Payments are made the Lessee owns the equipment free and clear.
