SECTION 4. Section 7.08.030 is hereby added to the Tehama County Code to read:

- A. The director shall not issue any dog license under this chapter without presentation of a certificate of vaccination signed by a veterinarian showing one of the following for the dog to be licensed:
 - 1. That such dog has been vaccinated with an approved rabies vaccine and the period of time from the date of vaccination to the date of expiration of the license being issued does not exceed the time interval prescribed by the State Department of Health;
 - 2. An exemption form approved by the local health officer at the request of a licensed veterinarian for which the veterinarian determines that the vaccination would endanger the dog's life because of disease or other consideration. Such form shall signed statement by the dog owner affirming that the owner understands the consequences and accepts all liability associated with owning a dog that has not received the canine antirabies vaccine.
- B. Where an exemption is approved by the local health officer, the exempted dog may be issued a license but is considered unvaccinated. Licensure of an exempted dog may not extend beyond one year; at or before the end of the one-year license period, the dog must be vaccinated for rabies or a new request for vaccination exemption must be submitted by the veterinarian to and approved by the local health officer. The owner of the dog shall keep such dog confined to the premises indicated on the forms, or else on a six-foot (6') leash and under the direct physical control of an adult. Additionally, the exempted pet cannot have contact with any animal that is not current with rabies vaccination.
- C. Every veterinarian who vaccinates, or causes or directs to be vaccinated, any dog with anti-rabies vaccine within the County of Tehama, is required to issue a certificate or such other form approved by the county health officer. A copy of such certificate or approved form shall be submitted to the Tehama County Division of Animal Services by the fifteenth of each month for all vaccinations administered during the preceding month. Certificates shall contain all necessary information including the mailing address and physical location of the animal owner's residence, if different from mailing address.

Such license fee shall be waived for assistance dogs owned and used by totally or partially blind persons, deaf or hearing impaired persons, or handicapped persons, and for dogs owned and used by police departments or law enforcement officers exclusively for police work if all other requirements for licensing under this chapter are met. The director shall require such proof of qualification as the director deems necessary prior to waiving or reducing the license fee for any dog. This provision does not remove the owner's responsibility to vaccinate said dogs against rabies.
- B. A one-year, two-year or three-year dog license may be issued provided that the rabies vaccination will be effective for the entire period for which the license is issued. A prorated license may be issued to expire with the expiration of the vaccination certificate.
- C. The owner of any dog who fails to obtain the required license within thirty days after acquisition of the dog shall be liable for an administrative penalty in the amount of fifty dollars, which may be waived by the director of animal services if such failure is voluntarily disclosed by the owner to the division of animal services prior to any complaint being made to, or any investigation or enforcement action being commenced by, any officer or employee of the County of Tehama or the State of California.
