The [Registration Guide \(\[/resource/resmgr/conference/2024/2024_iacme_registration_book.pdf\]\(/resource/resmgr/conference/2024/2024_iacme_registration_book.pdf\)\)](/resource/resmgr/conference/2024/2024_iacme_registration_book.pdf) contains some additional information about the symposium. There are two parallel in-person Symposium opportunities, the Basic Medicolegal Investigations Course and the Advanced Medicolegal Symposium. Both courses will request Nevada POST, ABMDI, and AMA PRA Category 1 Credits.

- The **Advanced Medicolegal Symposium** is designed to provide medicolegal professionals and those relating to and supporting medicolegal investigators an in-depth view and study of more advanced concepts. Topics presented will provide attendees with a variety of comprehensive details in multiple areas of learning, including new and emerging trends.
- The **Basic Medicolegal Investigation Course** is intended to familiarize medicolegal death investigators with the operation of a medicolegal investigative system, the role of the medicolegal death investigator, and other fundamental topics to build a solid investigative foundation. The training provided will provide attendees with the basic information and expertise to conduct death scene investigations as a medicolegal death investigator.

The **Advanced Medicolegal Symposium** will be held simultaneously in a virtual format, with the same content streamed live to attendees via Zoom with interaction opportunities. The **Basic Medicolegal Investigation Course** is held in-person at the Golden Nugget Hotel.
