

Public Risk Innovation, Solutions and Management (PRISM)

The classification specification for the Chief Administrator provides that the person filling may also be designated as the County's Risk Manager by the Board of Supervisors. The Board has designated the Administrative Services Director as the Risk Manager. At this request, Staff is requesting to appoint the Chief Administrator as the County Risk Manager to provide oversight for all County departments in the form of risk management, insurance, public occupational health and county safety programs.

PRISM is a member-directed risk sharing pool of counties and public entities. Tehama has been a member since inception and will continue membership for health benefits and levels of liability and property coverage. The Board of Supervisors appoints Tehama representative and an alternate representative to serve on the PRISM Board of Directors. Staff requests that the appointees for the Trindel and PRISM Board of Directors be the same for consistency.

On 6/14/22 The Board of Supervisor authorized the County of Tehama to become a member of the Trindel Insurance Fund and appointed staff to serve on the Board of Directors. Pursuant to Trindel bylaws, each member entity shall appoint one (1) Director Representative to serve on the Trindel Board of Directors; each shall also appoint an alternate member who may also participate. Trindel is heavily involved in personnel matters so Staff requests the Personnel Director be appointed as the Alternate Representative.
